Windjammer for a C-5. This attaches to the top of the windshield with a temporary clamp that can be easily be attached or removed. This was donated by one of our members since he now owns a C-7. As it did not sell at the Chili Cookoff, the club is selling it here. The money we receive for this will go to a charity. Windjammer retails for \$215.00, the club is asking \$100.00 or best offer. Please contact Ron Giese 262-628-3721.

CORVETTE Storage in Cedarburg area. Very clean, dry, bird proof and secure. Reasonable annual rates. Brent Brown 414-553-1978.

Jon Gilmore, we are selling front floor mats (black) for a C-5. \$ 10-20.00 make an offer. Contact Ron G. 414-870-2497. Pay Ron, and he will make sure Jon gets it, or just pay Jon. Ron does have these in his garage. We don't have to have a picture!

## *Ozaukee Glass Editorial Page*

*Your trusted OG Editor needs REPORTERS. Please contact Jim aand talk about volunteering to contribute Corvette and club relevant reports to our newsletter. Specifically, I am looking for volunteers to send Jim a short email on each OCC Drive you participate in so I can write stories about our club drives.*

*Our advertisers are small to medium sized independent businesses. We have member driven advertisers; where members have suggested the advertiser rather than hope companies would reach out to us. Between us, our membership trades at all of these places. Readers, please take time each month to read through our advertisers and do business with them when it makes sense. If you have a business you trade with you think other members would like to know about; please write Jim with your suggestion.*

*Members: please send a note to Jim here at Ozaukee Glass telling him of your experiences with any of our advertisers.*

## Tech Tip!

### Diagnostic Mode

If you feel like your Stingray isn't operating at 100%, check out the Diagnostic Mode. With the car powered off and the keys nearby, to enter Diagnostic Mode, press and hold the start button without your foot on the brake for 8-10 seconds. This mode is used by the service technicians when trouble-shooting electronic issues. This will activate all of the electronics that typically do not come on in accessory modes, such as the heads up display and all of the driver selection screens.
